The Singularity University Experience

Summit **Spain**

SEVILLA // MARCH 12-14, 2015

www.singularitysummitspain.org

3days

3 Reasons to
not miss out!

1. A comprehensive vision of all of the disruptive innovations and the exponential impact of technology in businesses, given by world class experts.

Brad Templeton
Networks & Computing Chair

Daniel Kraft, MD
*Chair, Medicine &
Neuroscience*

Ramez Naam
Eng&EnimetaSystmFaul

Nigel Ackland
Bionic Arm Man

David Roberts
Faculty, Director Graduate Studies Program

Neil Jacobstein
Co-Chair, AI and Robotics

Raymond McCauley
*Chair, Biotechnology &
Bioinformatics*

Rob Nail
Associate Founder & CEO

Salim Ismail
Global Ambassador; Founding Executive Director

Nick Haan
Global Grand Challenges Director

2. A place to learn, accelerate and share

Learn

- Amplify the vision and comprehension of technology and its transformative effect
- Improve your company's key talent
- Accelerate knowledge in a structured manner in order to receive the maximum benefits
- Gain a global, up to date and coherent perspective
- Learn best practices

Accelerate

- Understand the digital client
- Get keys in order to focus on the innovation and development of products
- Generate new ideas and business models
- Apply latest trends in the digital transformation of your company
- Lead the transformation of your sector

Share

- Promote your projects in a never before seen business and technology focused event
- Arrange opportunities to informally network
- Make contacts with national and international experts, suppliers and executives

3. An Incomparable Environment

Sevilla is a city with over 30 centuries of history, three historic buildings declared World Heritage Sites, and a wonderful climate. Sevilla combines its historical and touristic activities with consolidated economic and business development, referring to the aviation industry and the technological parks, Cartuja 93 and Aerópolis, two engines of growth and innovation transfer.

Where you will live....The Singularity University Experience

The **10** reasons
that make this a
unique experience

It generates
inspiration and
vision

It permits turning
problems into
challenges

They provide concrete case studies
that highlight distinguishing milestones

The prestige of a
global institution

They are experts
in the concept of
disruption and
how it is different
than mere
incremental
evolution

Their speakers are
innovators,
entrepreneurs and
experts in their field

It is proven to be
a transformative
experience that
you will not truly
comprehend
unless you live it.
So live it!

It addresses a
multitude of sectors

They focus in a
practical and real
manner on
society's grand
challenges and
how technology
can help resolve
them

Networking with
businessmen and
women, executives,
investors and experts
from dozens of
countries, and with
Singularity University's
network of contacts
